Regional preparatory process of the World Water Forum

Mediterranean
Water Forum

*“Bringing together the main stakeholders in the
Mediterranean Water Community”*

Why a Mediterranean Water Forum ?

- ❑ Mediterranean region is considered as **hot spot of the water scarcity** and the second hot spot of CC effects, but it is also a dynamic platform to a large number of solutions and experiences on water issues.
- ❑ Initiated in Marrakech in 2011 the Mediterranean Water Forum is intended to be a regional event that **brings together the main stakeholders in the Mediterranean water community**
- ❑ The Forum aims to present the Mediterranean as **a hub of innovative water management solutions** which have been locally developed or adapted to address the prevailing challenges of the region including those related to climate change impacts
- ❑ Every 3 years, the forum is held **in alignment with the themes defined for the World Water Forum**, the Mediterranean Water Forum will target priority topics for the Mediterranean region coordinated by the main regional stakeholders.
- ❑ its history managed to **transform the challenges of water scarcity into opportunities** for its sustainable development.

Mediterranean Water Forum's contribution

- Provides a **comprehensive solution** for evolving needs
- Showcases for **replication of med solutions** to address emerging issues at the global scale including contributor to jobs, prosperity, stability and peace
- Sets up **discussion environment conducive** for the development of an equitable strategy for a sustainable water resource management in the Mediterranean
- Contributes to making **water on the highest** political agenda at global, regional and a national level.
